**CELEBRATING
TEN YEARS
OF CREATING
APPLE II
SOFTWARE**

August 1990

Happy Birthday Beagle Bros!

Dear Apple II User,

Wow, we're 10 years old already! Beagle Bros has come a long way since its early days as a mom and pup software company. Now, Beagle Bros is top dog in the Apple II productivity market. And we're celebrating our first 10 years of success with a special sale and t-shirt offer!

If you have never bought a Beagle Bros program, even though you had 10 years to think about it, now is an opportunity you won't want to miss!

5¢ Sale

Beagle Bros has introduced four new Apple II products so far in 1990: TimeOut MacroEase, TimeOut TextTools, AW 3.0 Companion and the SuperFonts Activity Guide. With the purchase of selected Beagle Bros programs (including any of these four new releases), you can get a second program for only 5¢.

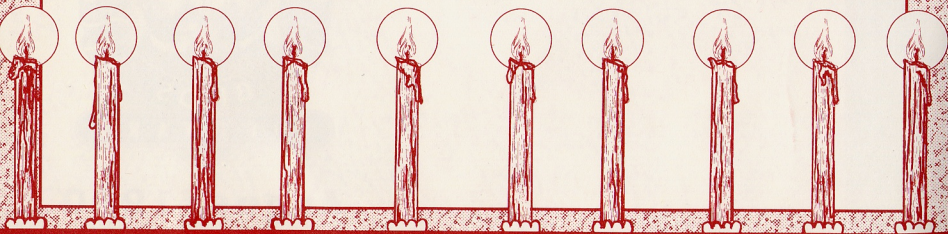

Beagle Bros T-Shirt Offer

When you buy two programs from us at the regular retail price, not only will you get two more programs for only 5¢ each, but you also get a Beagle Bros t-shirt—absolutely free! Although we're not in the soft wear business, we knew enough to make these t-shirts out of a heavyweight 50% cotton/50% polyester, so they should last a while. They come in white, white or white.

And by the way—don't wait! These special deals end August 31st. After that, your nickel won't go very far.

Yours truly,

The Beagle Staff

NEW
5¢

TimeOut MacroEase

AppleWorks and UltraMacros can do just about anything you tell them to do—if you know what to say. Learn the macro language with MacroEase!

Jumbo Size Collection

You'll discover loads of macro secrets. Techniques expressed in clear, how-to form will let you teach AppleWorks new tricks.

- Auto-save files at preset intervals.

- Make your own custom AppleWorks menus.
- Write your own interactive multiple choice quizzes.
- Check spelling in the data base.
- Take out the trash. (Not quite. We're working on it.)

MacroTour for Beginners

You'll be taken step-by-step through several samples that show you how to write your own macros. \$39.95

NEW

TimeOut TextTools

TextTools applications take the drudgery out of producing complicated documents—thesis papers, newsletters, even your Great American Novel.

Glossary lets you pick boilerplate text from a menu—enter names, addresses, even whole paragraphs faster than you can type. What Glossary does for text, QuickStyles does for printer options. Just choose

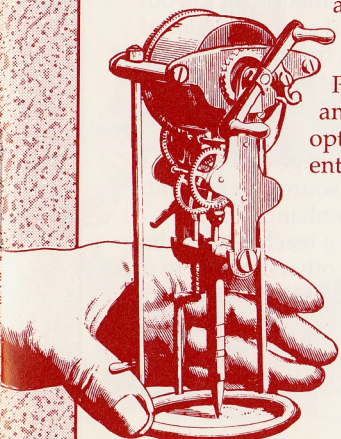

a style from a menu, such as "Bulleted Paragraph," and your printer options are entered for you.

Speaking of printer options, SuperFind will let you find and replace them! We didn't forget Tab Rulers either—with QuickTabs, you'll never have to fuss with the AppleWorks ruler editor.

Easily Create Columns

CopyBlock is the quickest way to get multiple columns of text exactly the way you want. Just highlight a rectangular block of text, pick the new location, and presto! Instant multi-column publishing.

With MarkMerge, you can print onto any type of pre-made form. And MultiPrint lets you print up to 100 word processor files at the same time. \$49.95

Early
TextTool

TimeOut MacroEase and TimeOut TextTools require AppleWorks 3.0 and work on an Apple IIe, IIc, IIc+ or IIGS with one 5.25 or 3.5 inch disk drive. TimeOut MacroEase also requires UltraMacros 3.0.

AW 3.0 Companion

NEW
5¢

Customize AppleWorks 3.0 for your own computer and your own special needs with AW 3.0 Companion, the official AppleWorks customization program from the developers of AppleWorks 3.0.

Start up the AW 3.0 Companion disk and you'll be greeted by familiar AppleWorks-style menus. Just select the changes you want made and you're all done. AppleWorks will be customized to your liking!

Over 70 ways to personalize your copy of AppleWorks are included:

- Use extra memory as both AppleWorks desktop space and a RAM disk—at the same time!
- Eliminate all those “Do you really want to do this?” questions!
- Add MouseText to screens and menus.
- Change the AppleWorks beep to something less obnoxious.
- Speed up loading and recalculation of the spreadsheet by restricting it to 999 rows.
- And much more!
\$39.95

AW 3.0 Companion requires AppleWorks 3.0 and works on an Apple IIe, IIc, IIc+ or IIgs with one 5.25 or 3.5 inch disk drive.

NEW

SuperFonts Activity Guide

The SuperFonts Activity Guide is a collection of teaching materials developed by professional teachers and fine-tuned through actual classroom use. The lessons are organized by type of activity, making the construction of lesson plans as easy as possible.

There is a wealth of information presented on many aspects of using SuperFonts. You'll be shown in a clear, straight-forward manner how SuperFonts can make your docu-

ments look great. And you'll be able to pass this information on to your students without spending a lot of sleepless nights trying to figure it out for yourself. Best of all, classroom materials you will need are already completed for you.

Use this package as a personal learning tool, a source for student applications to enhance your classroom or as a teacher workshop tool instructing others in how to use TimeOut SuperFonts. \$49.95

SuperFonts Activity Guide requires AppleWorks 2.0 or later with TimeOut SuperFonts and works on an Apple IIe, IIc, IIc+ or IIgs with one 5.25 or 3.5 inch disk drive.

TimeOut SuperFonts

Everyone will think you own a Mac when you print with Super-Fonts! Print from AppleWorks with fancy fonts and graphics. Comes with 47 fonts and a free Paint program! \$69.95

5° TimeOut PowerPack

A fantastic collection of TimeOut applications: make your own help menus, create a Data Base of all your files, triple your clipboards and triple your desktop files. Plus six more applications. \$49.95

TimeOut TeleComm

Link AppleWorks to the world! TeleComm is simple to use with no sacrifice in power. Capture text directly to an AppleWorks Word Processor file or 4,000 line review buffer. \$69.95

5° TimeOut DeskTools II

More AppleWorks tools our customers have demanded: a scientific/financial calculator, area code finder, file searcher, screen saver, disk tester and stop watches. Something for everyone. \$49.95

5° TimeOut DeskTools

Add a calendar, note pad, four function calculator, clock, file encrypter, case converter and telephone dialer to AppleWorks. All these basic conveniences—and more—in one package. \$49.95

TimeOut Thesaurus

Find the perfect word to express your thoughts. Thesaurus, with its 45,000 word dictionary, displays synonyms and adds the replacement word right to your document with no typing. \$49.95

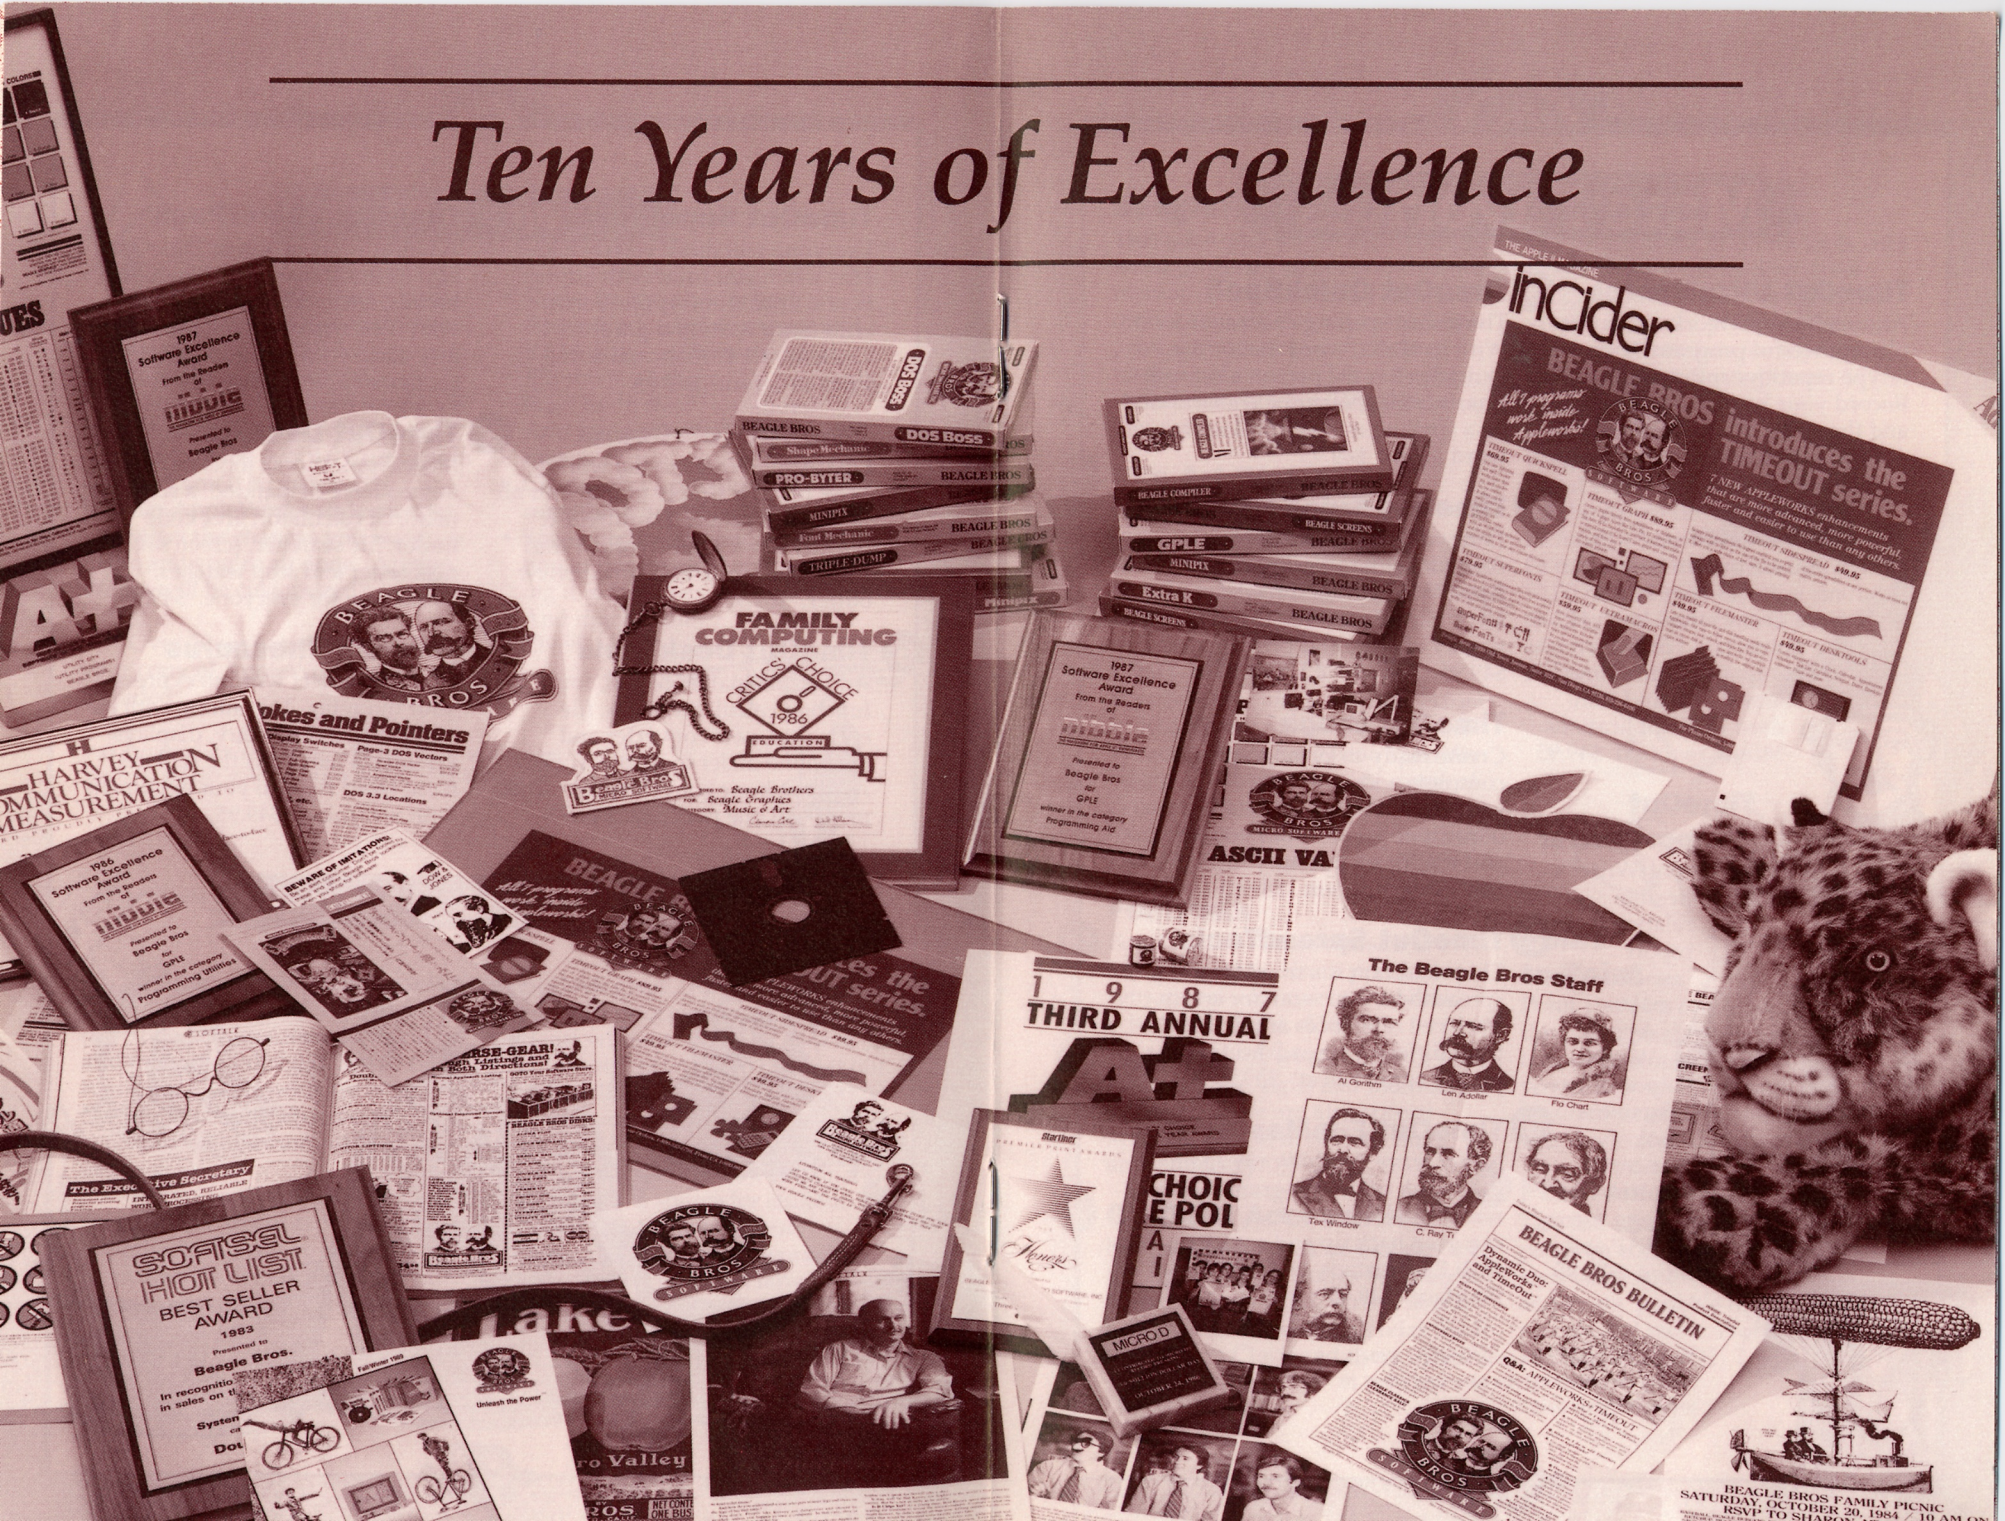

*"I got AW 3.0
Companion for
only a nickel!"*

*"It's the best thing since clean
longjohns!"*

*"How would you know,
Dorothy?"*

More Favorites

TimeOut UltraMacros

Automate AppleWorks with this ultra-powerful program. Never retype repetitive information again. Record your keystrokes as you go, and then play them back—up to 4,000 keystrokes with one command! \$59.95

5¢ TimeOut QuickSpell

The fastest spelling checker around! With its 80,000 word dictionary, QuickSpell is the perfect electronic proofreader. Never be embarrassed by a spelling mistake or double word again! \$69.95

5¢ GS Font Editor

Design and customize your own IIGs fonts with GS Font Editor. Scale fonts to any size—up to 127 points tall! Fonts are compatible with TimeOut SuperFonts and standard IIGS applications. Mouse required. \$49.95

5¢ TimeOut SideSpread

Print your Spreadsheet and Data Base files sideways—right inside AppleWorks! SideSpread can print all or part of your file in a wide variety of sizes and print qualities. \$49.95

TimeOut ReportWriter

ReportWriter's flexible relational report generator makes AppleWorks a powerful business tool.

Generate invoices, billings, forms, AR/AP and more. \$79.95

TimeOut Graph

Create ready-to-print graphs, complete with titles, borders, legends and more. Just choose one of the nine graph types you want and it appears instantly. Includes free Paint program. \$89.95

5¢ TimeOut SpreadTools

This collection is a must for every spreadsheet user: scan for errors, track cell references and link cells from different spreadsheets into a master spreadsheet! \$59.95

5¢ TimeOut FileMaster

Never leave AppleWorks again to use a disk utility program. Copy, rename, lock and unlock files. You can even back up and compare disks with FileMaster's easy-to-use interface. \$49.95

Watch the streets for your nearest Beagle Buddy volunteering his time and effort in promoting our sale.

BeagleWrite GS

This what-you-see-is-what-you-get word processor offers pull-down menus, dialog boxes and intuitive mouse control. Get your words into print with Macintosh fonts in a rainbow of sizes, styles and colors. Includes on-line spelling checker and thesaurus. \$99.95

5¢ Clip Art/Vol. 1

Exciting color graphics in four different formats. For use with your favorite IIGs applications. Contains Holidays, Sports, Animals, Faces and more. \$49.95

5¢ Font Library/Vol. 1

Font Library comes with 90 GS fonts in 40 different font families. These attractive fonts have been specially selected to include a wide range of decorative and fancy fonts. Compatible with standard IIGs applications and TimeOut SuperFonts. \$49.95

FontPaks

5¢ FontPak 1 — An assortment of attractive fonts—from practical to sensational—for use in the home, school and office. \$39.95

5¢ FontPak 2 — A whole series of fonts with pictures, signs and international symbols. There are also special symbols for use in science, math and chemistry. \$39.95

5¢ GS Desk Accessories

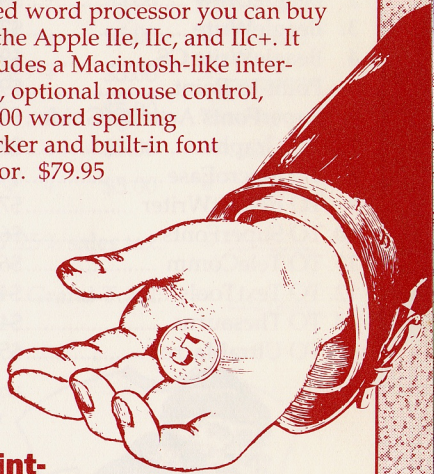

Macintosh-like desk accessories for the Apple IIGs. Includes Scrapbook, Macros, Phone Filer, Screen Saver, Scientific Calculator, Calendar, Note Pad, Alarm Clock and more. \$59.95

BeagleDraw

Get professional graphics tools with BeagleDraw—the leading draw program for the IIGs. BeagleDraw gives you all the power of the Macintosh interface for sophisticated graphics development. \$89.95

BeagleWrite

BeagleWrite is the finest graphics-based word processor you can buy for the Apple IIe, IIc, and IIc+. It includes a Macintosh-like interface, optional mouse control, 50,000 word spelling checker and built-in font editor. \$79.95

Point-to-Point

Point-to-Point comes with everything you need to take full advantage of your modem's built-in power. No other software is required to explore and conquer the world of communications. \$99.95

5¢ Program Writer

This full-screen Applesoft BASIC program editor uses AppleWorks-style commands and includes cut-and-paste, variable reference list, macros and more. Works in DOS 3.3 or ProDOS. \$49.95

ORDER HERE

Choose the program you'd like to purchase from the column on the left, and any one of the programs in the right column is yours for only 5¢!

You don't have to buy the second program for a nickel, but we suggest you do. That's what makes it a good deal.
